## SUMMARY

I'm a Software Developer with an Advanced Diploma in Software Engineering (ADSE), skilled in software design, database development, and optimization. My expertise includes SQL, PL/SQL, and working with MySQL, Oracle, and SQL Server to create efficient queries, data models, and ensure data integrity. I collaborate well with cross-functional teams to develop high-quality, user-centered software solutions and stay updated with industry trends to continuously improve my skills.

## WORK EXPERIENCE

|   |                                |                |

| October 2022 - May 2024   | Marketing Specialist Permanent | Karachi, Sindh |
| <ul style="list-style-type: none"><li>Managed email domain marketing and social media campaigns to enhance brand visibility and engagement.</li><li>Conducted competitor analysis to identify market trends and opportunities, informing strategic decisions.</li><li>Handled data entry for ROA and marketing results, ensuring accurate reporting and analysis.</li><li>Followed up with potential buyers to nurture leads and drive conversions.</li><li>Developed brand awareness through strategic paid advertising initiatives.</li></ul> |                                |                |
| April 2022 - September 2022   | Income Tax Internship          | Karachi, Sindh |

An internship in the Income Tax Office as a Data Analytics intern would provide you with a valuable opportunity to gain practical experience in utilizing data analytics tools and techniques to analyze income tax-related data.

- 1. Analyzing income tax data using statistical and data analytics tools to identify trends, patterns, and anomalies.
- 2. Assisting in the preparation of tax reports and returns by analyzing and validating financial data.
- 3. Collaborating with tax professionals to develop strategies for minimizing tax liabilities and maximizing tax savings.
- 4. Conducting research on tax laws and regulations to ensure compliance with current tax legislation.

Overall, an internship in the Income Tax Office as a Data Analytics intern would provide you with a hands-on learning experience in the field of income tax and data analytics, while gaining valuable insights into the inner workings of a tax office. This internship would be a great opportunity to enhance your skills, build your professional network, and kickstart your career in tax or data analytics.
